

## ^ DIP SOLDERING MACHINE SERIES

# PME-03M

## Manual-load automatic dip soldering machine

### Manual loading

Parts are loaded by hand, then flux dipping, dip soldering and unloading run automatically, with a programmable dip angle for vertical or horizontal coils and relays.

**3,500** W

POWER, AC 220 V

**4-6** kg/cm<sup>2</sup>

AIR PRESSURE

**920 × 700** mm

FOOTPRINT, L × W

## KEY FEATURES

### ^ Coils and relays

Solders vertical or horizontal coil and relay components.

### ^ Programmable dip angle

The rotation angle for dip soldering is programmable.

### ^ Stable, labor saving

Stable, efficient and simple to operate, with lower labor costs.

### ^ Manual load, automatic process

Load by hand; flux dipping, dip soldering and unloading are automatic.

### ^ Custom designs

Can be custom designed to a customer's special soldering requests and specifications.

## SPECIFICATIONS

| MODEL <b>PME-03M</b> |                             |
|----------------------|-----------------------------|
| Operation            | Touch panel interface       |
| Control              | Servo motor and PLC         |
| Air pressure         | 4–6 kg/cm <sup>2</sup>      |
| Power                | AC 220 V, 50/60 Hz, 3,500 W |
| Dimensions           | L920 × W700 × H1,300 mm     |
