KEY FEATURES

Dedicated to copper foil

Built for taping and cutting copper foil.

Foil 8–30 mm, 0.1–0.8 mm thick

Takes copper foil from 8 to 30 mm wide and 0.1 to 0.8 mm thick.

Free cutting length

Cutting length can be set freely.

Fully automatic cycle

Automatic feeding, taping, cutting, rejecting and production counting.

Flat or curved ends

Taped foil can be cut with flat or curved ends; each needs its own blade.

Quick size change

To change foil width or thickness, just swap the roller guide and related parts.
